HOW DO YOU KNOW WHETHER YOUR COMMUNICATIONS REACH THEIR GOAL? (Comment Savoir si vos Communications Atteignent Leur But?). [1960] [6]p.
Order from SLA mi\$1.80, ph\$1.80 60-18657

Trans. of Travail et Méthodes (France) 1958, Jan, p. 173-174.

The following suggestions are offered for improving communications. Learn everything possible about the interests, aspirations, and dislikes of the persons you seek to reach. Learn what those persons think and know about you. Then check to see if you have said the necessary things, to the necessary people, in the necessary manner. Periodically compare your results with those of others. Continually seek to adjust your efforts according to your results. Develop some way of checking each year to see whether your communications have reached their goals.
